EVERY SCHOOL DAY COUNTS

How missed days add up over a school year

There are 190 school days in a year.

That leaves 175 days for holidays, appointments and family time.

Attendance	Days missed a year	Learning lost a year
100%	0 days	None missed
95%	About 10 days	Nearly 2 weeks
90%	19 days	Nearly 4 weeks
85%	About 28 days	Nearly 6 weeks
80%	38 days	Nearly 8 weeks

Just one day off every fortnight

adds up to nearly 4 weeks of learning each year

and more than half a school year by the end of Year 6.

Every lesson builds on the last. Thank you for helping your child to be in school, on time, every day.
